SUMMARY

I'm a design-driven Front-End Developer with AWS Cloud Certification and a UI Design Certification from Lasting Dynamics. With over four years of experience in software development, I specialize in building responsive designs, enhancing accessibility, and creating visually appealing user experiences.

I have proficiency in JavaScript, React, SCSS, and AWS services, including CloudWatch, DynamoDB, Cognito, Parameter Store, and Amplify. Additionally, I have experience working with AI services such as Google Gemini.

WORK EXPERIENCE

UI Designer

Lasting Dynamics - Spain

Sept 2023 - Present

I worked as a UI Designer on a cloud-focused platform, creating user flows and high-fidelity mockups. I collaborated with stakeholders to ensure intuitive and visually appealing designs meet customer expectations. Additionally, I contributed to developing new pages for the company's existing website. I worked extensively with Figma and personally explored plugin development in Figma as well.

Frontend Developer

IT Consortium - Ghana

September 2021 - February 2023

I built and maintained a centralized portal for around 250 merchants to generate reports and track invoices. I worked extensively with React.js for the frontend and Lumen for the backend.

Additionally, I integrated AWS services such as CloudWatch for monitoring and Simple Email Service (SES) for notifications. This experience enhanced my skills in building scalable and efficient web applications.

Frontend Developer

Npontu Technologies Ltd. - Ghana

June 2017 - August 2020

I developed web templates for an enterprise Bulk SMS application within Laravel. This role provided hands-on experience in Laravel web development. I also worked extensively with pure JavaScript and jQuery to enhance frontend functionality. This experience strengthened my proficiency in HTML, SCSS as well.
